

D. Definition of Services: (continued)

The above components of case management services must fall within the following parameters to be eligible for medical assistance payment:

1. For clients in hospitals, NFs, or ICFs/MR, payment for case management services is limited to the last 180 consecutive days before discharge in an effort to establish continuity of care and community-based services recommended by the discharge planning team. This 180-day coverage may not exceed more than six months in a calendar year.

Case management services will not duplicate those provided as part of the institution's discharge plan.

2. A client's continued eligibility for case management services must be determined every 36 months by the local agency. The determination of whether the client continues to have a diagnosis of serious and persistent mental illness or severe emotional disturbance must be based on updating the client's diagnostic assessment or on the results of conducting a complete diagnostic assessment because the client's mental health status or behavior has changed markedly.

The following services are not eligible for payment as case management services:

1. Diagnostic assessment.
2. Administration and management of a client's medications.
3. Legal services, including legal advocacy, for the client.
4. Information and referral services that are part of a county's community social service plan.
5. Outreach services including outreach services provided through the community support services program.
6. Services that are not documented as required under Minnesota Rules, part 9520.0920, subpart 1.

D. Definition of Services: (continued)

8. Therapy or treatment services.

2. An entity under contract with the local agency to provide case management services;
